

Production Services

Basic Light and Sound

The Performance and Heritage Hall fees include basic illumination of either stage area and limited use of the sound equipment. Unless the renter designates a light or sound console operator (approved by the Production Manager), the Production manager will manage and operate the light and sound systems.

Light Design and Operations

If the renter needs more than basic light design, the Center offers design and operation services. The fee for this service will be negotiated at time of contract. NOTE: The renter can provide its own experienced light designer/technician with approval from the GFC Production Manager.

Sound Design and Operation

If the renter is interested in more than a limited use of sound, the Center offers sound design and operation services. The fee will be negotiated at time of contract. NOTE: The renter can provide its own experienced sound designer/technician with approval from the GFC Production Manager.
